Neighborhood Ride-Arounds

In our efforts to keep our neighborhoods beautiful, you may see Landings staff out to make sure all homes and housing areas are being kept in line with our Resident Guidelines. If you receive a courtesy phone call, please keep in mind that we are doing this for the betterment of the community for you and your

neighbors. To avoid getting a call, make sure that your yards are clear of trash bins, debris, toys and bikes. Satellite dishes should not be affixed to the homes or fences and all fenced in areas should be mowed. Thank you for your support!

Landscaping Schedule

Our Landscaping Crew from Inside
Out Services is working very hard to
keep the neighborhoods looking
beautiful. The following schedule is
tentative and subject to change.
Fridays will be make-up days, and if a
neighborhood is completed faster than
expected, the crews will move on to
the next neighborhood.

Monday—Doolittle Park

Tuesday—Rickenbacker and
Hooe Terrace

Wednesday—Hooe Terrace, Billy
Mitchell Estates, Duncan Avenue
and Westover

Thursday—Billy Mitchell Estates,
Hickam Village

Residents are reminded that all
fenced-in areas are the responsibility
of the resident to mow, and all
residents are responsible for watering
their grass. We appreciate your help
in our efforts!

Riding With the Wind

If you've ever wondered what it's like to fly as free as a bird, floating in a hot air balloon is about as close as you can get. Hot air balloon festivals abound in summer as a feast for the eyes. For the adventurous, commercial hot air balloon rides are increasingly available.

The first hot air balloon took flight in 1783 in France, with a sheep, a duck and a rooster on board. In 1793, George Washington witnessed the first balloon launch in North America, piloted by Frenchman Jean Pierre Blanchard.

The three basic components of the aircraft are the envelope, burner and basket. The envelope is the actual balloon that holds the air. The burner is the equivalent of an engine and drives hot air into the balloon. The basket is where the pilot and passengers stand. To drive the balloon upward, the pilot opens the propane valve. To move it downward, the pilot uses the parachute valve. To steer the balloon, the pilot moves the craft up or down, depending on the location of wind currents, and rides with the wind.

A commercial ride in a hot air balloon generally costs from \$150 to \$275, but often rides in tethered balloons are available for much less at festivals. Check out HotAirBalloon.com for a list of balloon festivals around the world.

Creamy Mini Tarts

Ingredients:

- 1 8-ounce package cream cheese, softened
- 1 14-ounce can Eagle Brand Sweetened Condensed Milk
- 1/3 cup lemon juice
- 1 teaspoon vanilla extract
- 4 1.9-ounce boxes mini phyllo shells
- 2/3 cup blueberry preserves

Directions:

Beat cream cheese in large bowl until fluffy. Gradually beat in sweetened condensed milk until smooth. Stir in lemon juice and vanilla until blended. Spoon about 2 teaspoons into each mini shell. Refrigerate 2 hours or until firm.

Make a slight indentation in the filling using the back of small round measuring spoon. Fill with 1/2 teaspoon preserves. Refrigerate until ready to serve.

Variations:

Fresh fruit. Top mini tarts with fresh fruit such as strawberries, blueberries, bananas, raspberries, cherries, kiwi, grapes or pineapple. Garnish with mint leaves.

Hot fudge. Place 2 tablespoons hot fudge topping into corner of resealable plastic bag. Cut small corner off bag. Squeeze to drizzle over top of mini tarts.

Preserves. Use different flavors of preserves or orange marmalade to create a colorful assortment. Garnish with mint leaves.
